

DANCE PROJECT BY KIKE & NAHIR

Welcome to the Official Training by Kike & Nahir

More than just a dance training program, this is a space created for those who want to grow, challenge themselves, and reach their highest potential. Throughout this experience, we will share our methodology, knowledge, and passion for dance to help you develop your full potential both on and off the dance floor. We are truly excited to welcome you!

Mastery Certification by Kike & Nahir

OFFICIAL TRAINING

15+ HOURS OF IN-PERSON TRAINING

Enjoy more than **15 hours of intensive training** with Kike & Nahir, where they will share their methodology, experience, and vision of dance. This program is designed to elevate your technique, musicality, creativity, and stage presence by combining theoretical and practical classes with advanced tools that can be applied at a professional level.

A unique opportunity to learn from two experienced professionals and take both your dancing and your knowledge to the next level.

TECHNIQUE & CONNECTION

Master the fundamentals that truly make the difference. In this module, you will develop body technique, posture, movement control, and execution quality while building a genuine connection with both your partner and the music.

You will learn to communicate through dance by improving your musical interpretation, sensitivity, and synchronization, achieving movement that is more natural, precise, and expressive.

BODY EXPRESSION

Discover the power of communicating without words.

In this module, you will work on body expression, musical interpretation, and stage presence, learning how to convey emotions and connect with your audience through every movement.

You will develop greater confidence, authenticity, and personality in your dancing, transforming technique into a powerful tool for expressing yourself and enjoying every performance.

TRAINING & PREPARATION

Build a strong foundation for continuous growth as a dancer.

In this module, you will learn how to structure your training, develop effective practice habits, and maximize your progress both on and off the dance floor.

We will focus on the physical, technical, and mental aspects that will help you improve your performance, achieve your goals, and confidently face new challenges.

PHYSICAL CONDITIONING

Great dancing begins with proper physical preparation.

In this module, you will develop strength, endurance, mobility, stability, and coordination, building a body that is better prepared to meet the demands of dance.

Through targeted exercises, you will improve body control, reduce the risk of injury, and enhance your overall performance, allowing you to move with greater power, precision, and efficiency both on and off the dance floor.

MAXIMUM 40 PARTICIPANTS

This training program is designed to provide a highly personalized and high-quality learning experience.

For this reason, enrollment is limited to **40 participants only (20 Leaders / 20 Followers)**, ensuring individual attention, personalized feedback, and continuous guidance throughout the program.

A small group allows every participant to make the most of each session, receive direct coaching from Kike & Nahir, and enjoy a truly exclusive and enriching experience.

VIDEO AUDITION

Participation in the Official Training requires a **video audition**.

This selection process allows us to create a balanced group and ensures that every participant can fully benefit from the program.

By reviewing each application, we are able to understand every dancer's current level, style, and individual needs, creating a more cohesive learning environment tailored to the course content.

Our goal is to provide an atmosphere where every participant can grow, improve, and get the maximum value from this experience.

PROFESSIONAL CERTIFICATION DIPLOMA

Upon successful completion of the program, each participant will receive a **Professional Certification Diploma** recognizing their successful participation in the Official Training.

This certification acknowledges the hours of professional training completed and the commitment demonstrated throughout the program, adding value to your career as a dancer and supporting your professional development within the dance industry.

OFFICIAL TRAINING
